VIA ELECTRONIC FILING

The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, S.W.
Washington, DC 20554

Re: Comments to Further Notice of Proposed Rulemaking
Amendment of Parts 15, 74, and 90 of the Commission's Rules
Regarding Low Power Auxiliary Stations, Including Wireless
Microphones
WT Docket Nos. 08-166, 08-167; ET Docket No. 10-
24

Dear Chairman Genachowski:

Corporate Sound is a professional production company and audio equipment supplier. Our extensive inventory includes over 50 channels of Wireless Microphone, In-Ear Monitoring, and Intercom systems. That number is increasing every year.

Our wireless systems are used in events as diverse as concerts, corporate meetings, weddings, theater, worship services and political rallies. We use this equipment locally and throughout the eastern half of the U.S. Many of these events are recorded and/or broadcast locally, regionally or nationally.

Obviously, crystal clear, interference free audio transmission is critically important to the people involved in these events. It is also critically important to the success of our business, where there is no tolerance for technical failure.

We are asking you to ensure that any rule changes that the FCC adopts will allow Corporate Sound to obtain an FCC wireless microphone license so that we may continue to operate these events without interference and successfully grow our business.

Thank you for your consideration,

Paul Winkler
President
